Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

30. (Cancelled)

31. (Currently Amended) ~~The method of claim 30, comprising:~~ A method of communicating comprising:

_____ modifying at least one antenna's beam width based on received radio resource allocation instructions for signals to be transmitted and/or received by the at least one antenna, the instructions including location information of a mobile in communication with the at least one antenna;

receiving information related to at least one or a combination of a signal to noise ratio of signals conveyed between the at least one antenna and the mobile or a data rate of signals conveyed between the at least one antenna and the mobile;

processing the received information to generate the radio resource allocation instructions;
and

conveying the radio resource allocation instructions to a beamformer coupled to the at least one antenna.

32. (Currently Amended) ~~The method of claim 30~~ A method of communicating comprising:
modifying at least one antenna's beam width based on received radio resource allocation
instructions for signals to be transmitted and/or received by the at least one antenna, the
instructions including location information of a mobile in communication with the at least one
antenna;
_____ where the radio resource allocation instructions comprise information related to data rate
of the signals, a signal to noise ratio of the signals, power level of the signals and quality of
service needs of a user of the mobile.

33-38. (Cancelled)
